

LOG banner instruction

To facilitate linkage between your website and the Global Logistics Cluster LOG download, three banners for placement on your website were created.

Below you can find the HTML code that you can use to include the banners on your intranet/internet sites. You just have to copy and paste it onto your website's HTML. There is a lighter and a darker version of the banner, each available in three sizes, a normal one with 625px by 208px, a small one with 313px by 104px and a very small one with 150px by 50px.

Option 1:

Big size:

```
<a href="http://log.logcluster.org"></a>
```

Small size:

```
<a href="http://log.logcluster.org"></a>
```

Very small size:

```
<a href="http://log.logcluster.org"></a>
```

Option 2:

Big size:

```
<a href="http://log.logcluster.org"></a>
```

Small size:

```
<a href="http://log.logcluster.org"></a>
```

Very small size:

```
<a href="http://log.logcluster.org"></a>
```
